or visit **BELDinternet.com**

Due to the safety of our employees and you we have strict safety guidelines in place during the install. All BELD technicians will be wearing a face mask and nitrile gloves, we are also requiring our customers to wear a mask during the installation and to maintain at least a 6' distance from our technician.

A DOCSIS 3.1 or above modem is required for new BELD Internet services, customers may lease a modem from BELD or purchase their own before the install. Actual speeds are "up to" and not guaranteed. Advertised speeds are for a direct connection to the modem with a wire. Equipment, taxes and fees may be extra. Other restrictions may apply.
